

Awakening News Release #2

Awakening evokes a variety of images-new life, new insights, new opportunities, new growth. Perhaps you have been working to bring about these same qualities in your congregation. We have good news for you!

Our Region-- the American Baptist Churches of Indiana and Kentucky (ABC/IN-KY)-- is ready to partner with your congregation to work with you in this process. It is in the spirit of this partnership that the ABC/IN-KY is intentionally focusing for the next two years on the health and revitalization of churches, especially those whose attendance is 120 or less.

AWAKENING is a process in which the pastor and 3-4 key lay leaders will learn in community with other congregations about seven different topics. Each of these topics will prepare your church for new life and new growth. Each session will include practical materials for you to use with your congregation to engage them in the process too.

Begin to pray about your church's involvement in AWAKENING. Pray for who in your congregation might be ready to learn and lead in AWAKENING. Feel free to contact your Area Resource Minister for more information or questions.

Go to [AWAKENING](#) for more details and a brochure of the topics.
